About Lakewood Ranch Medical Center

For more than two decades, Lakewood Ranch Medical Center, an acute care hospital, accredited by The Joint Commission and located in the heart of Lakewood Ranch, has been focused on providing an exceptional patient experience, resulting in recognitions and high rankings in quality, safety and patient satisfaction. The hospital offers a comprehensive breadth of major specialty services for all ages, including cardiovascular, orthopedics, neurosciences, robotic surgery, bariatric surgery, maternity services, primary care and much more. ER at Fruitville,* an extension of Lakewood Ranch Medical Center, is a full-service freestanding emergency department with board-certified physicians onsite. Outpatient diagnostic services are also available at ER at Fruitville, including laboratory, X-ray and CT services.

New & Noteworthy

Dedication to a Growing Community: Hospital Expansion Project

This is an exciting time of growth for Lakewood Ranch Medical Center and for our community. In addition to celebrating 20 years of compassionate, quality healthcare services for patients in 2024, the largest and most significant expansion in Lakewood Ranch Medical Center's history is now underway. On June 11, the hospital broke ground on its first phase of its \$120 million expansion project. Completion of a new five-story, 170,000 square foot multiphase addition on the hospital's campus is expected in early 2026.

The first phase of the new patient tower will add 60 beds for intensive care and progressive care patients, bringing bed capacity to 180. Additionally, advanced medical technologies, complex cardiology, higher acuity neurological services and key ancillary departments will be expanded. The new tower will include patient-centric design features for a soothing and healing environment. And contemporary design of universal patient rooms will allow for pivoting of the rooms to accommodate whatever is needed for the patient, in real time, whether this be telemetry, intensive care or other specialty service. Patient bed capacity will be increased to 240 once the second phase of the patient tower is completed.

The Lakewood Ranch Medical Center expansion project highlights the hospital's dedication to the continued delivery of quality, advanced care to a growing community.
